

Axiflow HP High Pressure Series

Featured Benefits

- The Lowest Total Cost of Ownership of ANY Positive Displacement Pump on the Market!
- Twin Screw Technology is the ONLY type of PD pump that is CIP-able AND is capable performing CIP with speeds up to 4,000 RPMs
- Low Shear Pumping Device Capable of Delicately Handling of Soft Solids up to 1-5/8"
- Pulse Free, Repeatable Pumping for Inline & Continuous Blending
- 3A and EHEDG Certified
- Flow rates from 0.1 GPM to 1,450 GPM
- Discharge pressures of up to 750 PSI Differential
- Speed ranges from 10 RPM to 4,000 RPM
- High Suction Capabilities & Low NPSH Requirements
- Ability to Run Dry Indefinitely without Damaging Pump or Seals
- Handle viscosities from 1 to 1,000,000 cps
- Excellent wear resistance on abrasive materials
- Direct Coupled with C-Face Motors for Reduced Footprint
- All Stainless Steel Bearing Housing—NO PAINTING REQUIRED!
- All Stainless Components are Machined out of 316L Billet Stainless—No Cast Parts!
